

Rob Wyly Trading

Rob Wyly Trading (RWT) was established in 1990 and since inception has led the way in developing the reflective and high-visibility market. We are situated in Johannesburg, Cape Town and Durban.

RWT are manufacturers and suppliers of high visibility clothing and tape, catering for the needs of those who work in potentially dangerous or hazardous environments. To this end we supply and manufacture garments that ensure comfort, quality, durability and personal safety.

Since safety is paramount, RWT provides personal protective equipment (PPE) required for your workers' needs. Years of experience in this market has led us to develop a range of rainwear, safety jackets and other reflective products for a variety of applications.

RWT has always believed in using the very best quality and specialised materials available, including our own signature range of **WATT** products – a result of years of experience in the industry. If our extensive range of clothing does not fulfil your exact needs, we can custom-make garments to your own specifications. We manufacture and supply clothing to your particular needs, using EN471 as well as SANS50471 standard approved retro-reflective tapes and Fabrics. Our products can incorporate specialised properties for specific industries. These include anti-static, flame retardant, hard wearing materials.

Our Manufacturing Partners

SHAP

Empowerment through employment of the disabled and historically disadvantaged communities has been the focus of Rob Wyly Trading since it was established in 1990. For this reason, a joint venture between RWT and SHAP was formalised in 1993. This association has secured training and full time employment for many disabled people at SHAP in Soweto, since its inception.

7th Wave investments

7th Wave was established to save a failed cut, make and trim (CMT) factory. It now offers employment to previously disadvantaged workers who would have otherwise been retrenched. The initiative includes an ongoing training programme, improving the skills of the workers. As a result of this programme, 7th Wave Investments now continuously develop new products and improve existing ones.

Social Responsibility

We are committed to forming sustainable projects benefiting previously disadvantaged individuals and communities. RWT's commitment to SHAP over the past 22 years, and providing work to 160 historically disadvantaged individuals is testimony to our commitment.
