## **VINYL CUT PRINT TRANSFERS:**

A versatile and efficient method of branding. It involves transferring a design onto a substrate using heat and pressure.

## **SCREEN PRINT:**

A mesh is used to transfer ink onto a garment, except in areas made impermeable to the ink by a blocking stencil. One colour is printed at a time, so several screens can be used to produce a multi-coloured design.

## **PRINTED ENCAPSULATED PANELS:**

Reflective PVC panels, printed in single or multiple colours. Encapsulated for protection and easy cleaning. Ideal for rainwear.

## **VINYL PRINT TRANSFER:**

Cut and heat applied print. Vinyl available in reflective or non-reflective in various colours.

## **EMBROIDERY:**

Your customised design is digitised and machine sewn onto the garment.

## **DTF (DIRECT TO FILM):**

Printing your design directly onto a film and heat transferred onto the garment. Ideal for small detail

**OUR IN-HOUSE PRINTING DEPARTMENT UTILISES SPECIALISED EQUIPMENT TO CUSTOM-DESIGN AND PRINT ARTWORK TO YOUR SPECIFIC NEEDS. THE GRAPHIC DESIGN TEAM IS AVAILABLE TO ASSIST YOU**

**WATT**  
reflective  safety gear

A man with a goatee and glasses, wearing a black t-shirt, black pants, and a high-visibility yellow and grey safety vest, stands in profile looking to the left. He is positioned in front of a brick wall that is partially demolished, with exposed wooden beams and rubble. The background shows a clear sky and a distant tower.

#### WHAT IS ISO? INTERNATIONAL STANDARDS ORGANISATION

##### DEFINITION OF THE STANDARD

##### Definition Of The Standard

ISO 20471:2013 specifies requirements for high visibility clothing, which is capable of visually signalling the user's presence. The high visibility clothing is intended to provide conspicuity of the wearer in any light condition when viewed by operators of vehicles or other mechanized equipment during daylight conditions and under illumination of headlights in the dark.

Performance requirements are included for colour and retroreflection as well as for the minimum areas and for the placement of the materials in protective clothing.

# SAFETY IS KEY

Since safety is paramount, **RWT** provides apparel and personal protective equipment required for you and your employee's needs.

Years of experience in this market has led us to develop a comprehensive range from rainwear to safety jackets and other reflective high visibility products for a variety of applications.

RWT has always believed in using the very best quality and specialised materials available, including our own signature range of **WATT** products this is a result of years of experience in the industry.

**RWT**<sup>®</sup>

## SOCIAL RESPONSIBILITY

From the early 90's we have committed to sustainable projects that benefit previously disadvantaged individuals and communities. RWT's commitment to Seventh Wave since 2008 has provided work for historically disadvantaged individuals and is testimony to our commitment.

## OUR MANUFACTURING PARTNER:

7th Wave Investments is an empowerment company offering employment to the historically disadvantaged. The initiative includes an ongoing training programme, aimed at improving the employees' skills. In addition, with the help of the Department of trade and industry through their production incentive, the factory has replaced its equipment with modern high-tech machinery and has implemented new programs and systems to become a modern, world-class manufacturing facility.
